# APSI
Air Pollution Scientific Initiative

The non-profit __Air Pollution Scientific Initiative__ provides a comprehensive, evolving, multilingual repository of knowledge in air pollution sciences

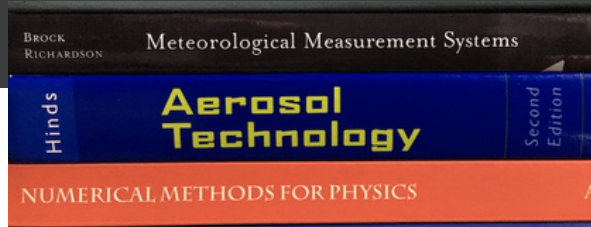

The main core of APSI is the MATRIX.

Inside it, all air pollution topics are broken down by subtopic and learning level: Basic, Intermediate, and Advanced.

By clicking on a MATRIX cell, comprehensive air pollution materials can be freely examined for educational and research purposes.
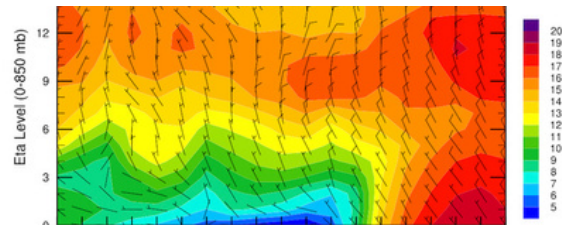

In addition to the MATRIX, APSI provides multilingual support to facilitate learning in developing countries, video interviews of senior experts, and links to parallel initiatives, publications, and course materials.
